

Summer Day Camp Sponsor a Child

The cost of camp each is approximately \$200 a week for each child, and we try to make the program as inexpensive as possible so that all children can attend.

We work in association with School District 19, the Ministry for Child and Family Development, and with Mental Health in order to ensure that all children who may need sponsorship are given the opportunity to attend camp. We also support children with special needs regardless of their abilities, challenges, or home situation. This is to ensure that our camp is open to all children in our community.

Last year, Summer Day Camp ran for 7 weeks with approximately 21 participants attending each week. With the help of our sponsors many of these kids were given an opportunity to attend a fun and stimulating week of activities
